ABCO SUBSEA TO ATTEND 2018 OFFSHORE WIND EXECUTIVE SUMMIT

ABCO Subsea will be attending the 2018 Offshore Wind Executive Summit, Sept. 24-25 at The Westin Galleria.

The U.S. Offshore Wind Industry is on the brink of success with pending legislation changes and an increase in interest from some of Europe's biggest renewable energy companies. The industry can not only supply substantial power to the densely populated Northeast, but can provide thousands of jobs in manufacturing turbines, towers and other appurtenances. ABCO Subsea sees synergy between Oil and Gas and Offshore Wind technologies in designs, structure foundations, vessels and cabling. It is only natural that offshore O&G experts lead the way in the advancement of U.S. Offshore Wind; ABCO is looking forward to developing long-lasting relationships in this new venture.

Please reach out to sales@abcosubsea.com for your umbilical system needs or general design and fabrication requests.
